

Small Business Internship Program Subsidises E-Business Projects

Community Futures North Fraser is your access point for the Small Business Internship Program. This Government of Canada initiative provides small and medium size businesses with funds to hire a student to assist with e-business strategies.

To be eligible you need to define an e-business, or internet marketing project that requires at least 420 hours of work, typical over a 12 week period. The project can go longer than this but the federal funds will only be provided for the first 420 hours. The government will fund up to 75% of the student's wage, including mandatory wage related costs, such as EI and WCB to a maximum of \$10,000.

You can contact the North Fraser Community Futures office for more information about the program or to get assistance with the application process. Phone us at (604) 826-6252, or drop us an email at info@northfraser.org.
